Contents

CHAPTER I: INNOVATION: EMERGENCE, CURRENT SITUATION AND DEVELOPMENT PERSPECTIVES

Urkhan Seyidov, Expert in Innovations

- 1.1 The concept of innovation
- 1.2 Strengthening innovation policy
- 1.3 Small business and innovation process

CHAPTER II. THE EFFECT OF INNOVATIONS ON ECONOMIC GROWTH

Elchin Suleymanov, Expert in Education

- 2.1 Application of soft forces in the era of globalization
- 2.2 Innovative approach in digital world
- 2.3 Innovation and support mechanism of small and medium enterprise
- 2.4 Evaluation of economic productivity of innovation
- 2.5 The role of startups in economic growth
- 2.6 Venture funds
- 2.7 Angel investors

CHAPTER III. THE ROLE OF INNOVATIONS IN SCIENCE AND EDUCATION

Matanat Rasulova, Expert in Human Resource

- 3.1 Scientific basis of innovation activities innovation.
- 3.2 The role of science and education in the development of innovation
- 3.3 The role of innovation in the development of science
- 3.4 The role of innovation in the development of education
- 3.5 The role of innovation in educational development
- 3.6 Updates about innovations in the field of education in the world
- 3.7 Academic gaps in innovation in education standards in Azerbaijan
- 3.8 The stable foundation of science and education integration Innovation

CHAPTER IV. STATE SUPPORT FOR ENTREPRENEURIAL ECOSYSTEMS: OVERVIEW AND POLICY OPTIONS FOR AZERBAIJAN

Mehmet Tosun, Expert in Business Management

- 4.1 Entrepreneurial Ecosystems
- 4.2 The role of government in entrepreneurial ecosystems
- 4.3 Centralization of entrepreneurial assets
- 4.4 Entrepreneurship education
- 4.5 Government as a platform for entrepreneurship and innovation
- 4.6 Internationalization of the entrepreneurial ecosystem
- 4.7 Entrepreneurship and economic diversification
- 4.8 A centralized approach to government support

CHAPTER V. FROM IDEA TO BUSINESS Farid Ismailzadeh, Expert in Investment

- 5.1 What is a Startup?
- 5.2 Startups contribute to the national economy
- 5.3 Startups increase interest in both science and business
- 5.4 Startups provide technological development
- 5.5 Startup turns crisis into an opportunity
- 5.6 Turning a startup into a business
- 5.7 Success stories of famous startups
- 5.8 The main problems faced by startups

CHAPTER VI. FOREIGN EXPERIENCE IN STARTUP MANAGEMENT-Matanat Musayeva, Expert in Project Management

- 6.1 Scientific and technological advances, innovation and startups: U.S. model
- 6.2 Technology revolution, innovation and startups: Japan model
- 6.3 Globalization, innovation and startups: Western European countries
- 6.4 Economic growth, innovation and startups: East and Southeast Asian countries
- 6.5 Competitiveness, innovation and startups: MDB countries
- 6.6 Economic growth pace, innovation and startups: Turkiye
- 6.7 Innovation and startups: Israel model
- 6.8 Access to the Global Startup Ecosystem

CHAPTER VII. INNOVATION IN AZERBAIJAN: STARTUP CURRENT SITUATION AND PERSPECTIVES OF THE ECOSYSTEM -Isa Gasimov, Expert on innovation entrepreneurship

7.1. About institutional issues of startup ecosystem formation in Azerbaijan

7.2 Azerbaijan in Global Innovation Index reports

7.3 The role of science-education-business cooperation in the development of the startup environment

7.5 About some centers providing business incubation and acceleration services in Azerbaijan

7.6 About the factors hindering the work of startups and the problems in the development of startups in Azerbaijan

7.7 Potential perspectives in the development of the startup ecosystem in Azerbaijan

7.8 Development directions of the startup ecosystem in Azerbaijan: results and proposals

SUMMARY

The book discusses the history and current state of innovation, provides information on strengthening and commercializing innovation policies. It outlines the rules for using network models in managing projects on digital platforms and shows the tools for evaluating the economic efficiency of innovation activities.

Additionally, the book discusses "Innovatics" as a separate field of study, explains the role of startups in economic progress and development perspectives, and explores the possibilities for startups to ensure technological advancement.

Furthermore, the book establishes external country models regarding globalization, economic growth, competitiveness, and the role of innovation and startups in general development. It conducts comparisons among these models and analyzes institutional issues, current situation, and prospects of the startup ecosystem formation in Azerbaijan.
